Allowable Subject Matter

1. Claims 1-5, 7-9, 11, 14-16, and 18 are allowed. The following is an examiner's statement of reasons for allowance:

As for **claims 1-3, 9, 11, and 13-15**, the prior art of record fails to sufficiently describe or suggest a driving support system wherein the vehicle two-dimensionally determines a possibility that an estimated running vector of the moving object will intersect with an estimated running vector of the vehicle based on the information obtained through mobile communications and the vehicle corrects the two-dimensionally determined possibility when a road that overpasses or underpasses a road on which the vehicle is running is recognized ahead of the vehicle by the image capturing portion, and also it is determined that there is no road which two-dimensionally intersects with the road on which the vehicle is running.

As for **claims 4, 16, and 18**, the prior art of record fails to sufficiently describe or suggest a drive support system for a vehicle wherein a vehicle is provided with an image capturing portion and a moving object can communicate with the vehicle through mobile communications. The vehicle three dimensionally determines a possibility than an estimated running vector of the moving object will intersect with the estimated running vector of the vehicle based on mobile communications and image information. The vehicle sets a danger level concerning a collision.

As for **claim 5-8**, the prior art of record fails to sufficiently describe or suggest a drive support system for a vehicle wherein a moving object transmits information to a vehicle through mobile communications. The moving object includes an image capturing portion and transmit image information to a first vehicle and the first vehicle determines the possibility of a collision

by spatially obtaining road state near the moving object based on the image information transmitted from the moving object.

These along with further limitations set forth by the claims render the application allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
